With the support of the PTNSS Polish Scientific
Society of Internal Combustion Engines

CONFERENCE TOPICS

Aim of the conference is an exhibition of the newest achievements and results of research of domestic and foreign scientific and development centres in all the areas linked to automotive engineering. In particular, topics of the conference will be the following:

- research, development and exploitation of automotive vehicles,
- road traffic safety,
- development of alternative propulsion systems for automotive vehicles,
- new energy sources,
- green solutions for road transport.

PRESENTATION OF PAPERS

The conference will take place on 13th – 14th of September 2018 in Cracow, at the Faculty of Mechanical Engineering of Cracow University of Technology, 37 Jana Pawla II Avenue, Cracow. The selected papers will be presented in plenary and thematic sessions. The official language of the conference is English.

The articles after positive peer-review process will be published in the *Journal IOP Conference Series: Materials Science and Engineering* (Open Access, Online ISSN 1757-899X), which is indexed in Web of Science and Scopus scientific databases. The papers must be prepared in English.

Extended abstracts of the accepted papers will be also published in a printed form as the separate volume.

APPLICATION

The application for participation in the conference can be made by sending a fulfilled registration form via e-mail to the address: konmot@pk.edu.pl by 16th of March 2018. The title of paper and its abstract (up to 300 words) should be sent together with the registration form.

The confirmation of tentative acceptance of paper will be sent by the organizer to authors by e-mail by 30th of March 2018. The full text of a paper should be sent by 30th of April 2018 at latest.

Information about results of the peer-review and a final acceptance of the article will be sent to authors electronically by 29th of July 2018.
